

Thursday | October 13, 2016 | 7:30 AM - 6:00 PM Cross Insurance Center, 515 Main Street, Bangor, Maine

The National Science Foundation (NSF) and the University of Maine are pleased to invite you to participate in our upcoming NSF Day.

NSF Days provide basic insight and instruction on how to compete for NSF funding for science, engineering, and education research. This daylong workshop will provide background on the Foundation, its mission, priorities, and budget. During the day, NSF will give an overview on proposal writing, NSF's merit review process, and programs that fall within its seven scientific and engineering directorates, as well as funding opportunities that cross disciplinary boundaries. NSF representatives will be on hand to answer questions and to host discipline and program specific breakout sessions to personally engage in discussions with attendees.

WHO: Early career and tenure track faculty.

WHY: This one-day NSF Day workshop will teach researchers how to better compete for federal dollars that enable their projects. Information will be shared via lectures and interactive sessions. This is a behind-the-scenes look at how NSF works and how to submit fundable proposals.

REGISTER: Please register at www.umaine.edu/epscor/nsf-day and issue payment in the amount of \$35 no later than **Friday, October 7, 2016** to guarantee a spot. Space is limited. Registration fees are non-refundable, but transferable. Fees include continental breakfast, lunch, and snack breaks.

DIRECTIONS & PARKING: Please visit www.crossinsurancecenter.com and hover over the "Plan Your Visit" tab for directions and parking.

QUESTIONS: Please direct questions to Andrea Littlefield at andrea.littlefield@maine.edu or nsfday@nsf.gov.
